

Seeking a New Home for JoJo

JoJo, an adventurous and charming 16-month-old, 45-lb mutt, is seeking a new home. JoJo is an absolute cutie pie but also comes with some specific needs. She will do best in a quieter setting with no kids or other pets and no plans for either in the future. She thrives with lots of space to play, chase squirrels, and to get away from the action when she needs a break. A low traffic home and a quiet neighborhood would help her to thrive

JoJo needs a compassionate guardian to help her manage her big feelings around dogs approaching her humans or her property. She can be sensitive to loud & unexpected noises and is very fearful of children. .

JoJo loves running and hiking outdoors, both on and off-leash and responds well to "JoJo, come" in most situations. JoJo is affectionate and loves to snuggle and play with her people. Her good looks & silly antics are guaranteed to win over the hearts of any dog lover.

She has made a lot of progress with our trainer, and while we believe she will continue to improve, our specific home location and lifestyle puts too much pressure on her. As hard as it has been to make this choice, we think the best thing we can do to ensure quality of life for her is to find her a home that is better suited to her needs.
